

Out of District Transfer Students for 2019-2020

We will begin accepting new transfer requests for the 2019-2020 school year on January 7th at 8:00 a.m. If you would like to request enrollment for your out of district child, the first step is to come to the Industrial I.S.D. Administration Building at your first opportunity to apply. Bring with you: your child's birth certificate, social security card, and when applicable – latest report card and results for STAAR test (or a similar test if in a private school). Note that new transfers that meet our requirements are accepted on a first come first serve basis, therefore, time may be of essence in this regard.

Please note that the board will be reviewing the transfer policy over the next couple of months to see if changes need to occur. In April your applications will be presented to the Principal(s) for their decisions. Once the Principal has decided you will be notified as to approval or denial. If approved you will be instructed on next steps at that point in time.

If you have returning transfer student(s), you should have or will be receiving a letter in the mail shortly. They were mailed out on December 18th along with instructions.

Many thanks,
Lorie Paul
Administrative Secretary
